

Eugene Pavlyuk

I'm a successful, hardworking, highly proficient IT professional with 4 years' experience and a real passion for mobile application development. Having developed a series of commercially successful apps on iOS, I am seeking a new opportunity that will allow me to further expand on these skills. I am open to relocation.

I really love to read and write about development and technology in general.

I spend most of my time each day in Xcode on my MacBook Pro.

My iPhone is rarely more than 6 feet from me twenty four hours a day. I am an Apple Fan and living proof of the fact that "Once you go Mac, you never go back". My idol and inspiration will always be Steve Jobs.

My future plans are:

- Learn English better to communicate with ease
- Move to some other country. I'm considering only English-speaking countries since I know only English
 - Master Android development
 - Master MacOS development
 - Master Jailbreak development

- Master OpenGL ES, cocos2d and gavedev in general.

Date of Birth:

21th January 1988

Tongue:

Ukraine (Native), Russian (Native), English (Upper Intermediate)

Marital status:

Married, I have a child.

Skills
